Planning and Designing a Pharmaceutical Facility: A ... Process Design Once a new candidate active compound has been identified, a pharmaceutical company sets out to develop the manufacturing process. Almost without exception this results in the generation of a batch process though it is well understood that continuous processes are more efficient and cost only a fraction of the equivalent batch. Process design for pharma manufacturing - NNEâ€™s expertise. Our specialised knowledge of biopharmaceutical manufacturing is focused in five areas: Standard Practice for Pharmaceutical Process Design ... This practice covers pharmaceutical process design utilizing process analytical technology, which is integral to process development as well as post-development process optimization. It is focused on practical implementation and experimental development of process understanding. The principles in.

Flowsheet Models Modernize Pharmaceutical Manufacturing ... Flowsheet models, such as the one shown in Figure 1, can be used as a tool for process design, optimization (13, 14), risk assessment (15), control strategy analysis (16, 17), and monitoring of a continuous pharmaceutical process.
